

# DUCHESTER COUNTY ROAD DEPARTMENT

P.O. Box Duchesne, Utah 84021 435.738.2468

## Residential/Commercial Approach Permit

(Adopted by Resolution No. 16-03, April 11, 2016)

This permit allows the filing entity or person to conduct the necessary improvements to their approach for residential and commercial properties that will be encroaching on any Duchesne County right-of-way/roadway.

Approaches will be constructed on a 90 degree angle to the roadway. Approaches shall have sufficient visual clearances on both sides, so the traveling lanes and the traffic entering the roadway can clear visual contact.

Permittee shall furnish all needed material for proper drainage including, culverts 30'x15" min size for residential and 60'X 15" min size for all commercial approaches. All approaches will be constructed with a min of ¾" road base gravel material or asphalt if desired. Duchesne County Road Department reserves the right to determine that only an asphalt approach shall be constructed if safety issues are present.

Permittee shall contact 811 and all other utilities that apply before any work is to be performed in a Duchesne County right-of-way. Permittee is responsible for any and all damage to any and all utilities. All traffic control in the right-of- way shall be the responsibility of the Permittee, and shall follow the 2009 Utah MUTCD version standards. This version can be found online.

All approaches constructed for residential use shall have, from the edge of the roadway, a 30' minimum level pad to provide a safe zone for exiting or entering the roadway. The width of the approach will be determined by the speed of the roadway where the approach will be constructed. To be determined by an official of the Duchesne County Road Department.

All approaches constructed for commercial use shall have from the edge of roadway an 80' minimum level pad to provide a safe zone for exiting or entering the roadway. The width of the approach will be determined by the speed of the roadway where the approach will be constructed. To be determined by an official of the Duchesne County Road Department.

A pre-inspection by a Duchesne County Road Department Official is required before any construction shall begin. The Duchesne County Road Department must be notified when construction is complete. Upon approval of a final approach inspection, the permit will be signed.

Residential permit fee is \$75.00 non-refundable for each permit filed

Commercial permit fee is \$250.00 non-refundable for each permit filed.
